

Subjective: Low back pain 5/10. Reports doing home exercises daily. States prolonged standing >20 min still aggravates symptoms.

Objective: Lumbar AROM: flexion fingertips to mid-shin (improved from knees), extension 20deg. SLR L 65deg R 75deg. Core endurance: plank 45s, side plank L 25s R 30s.

Assessment: Core strength improving. Hip mobility progressing. Pain decreasing.

Plan: Progress core program to level 2. Add dynamic lumbar stabilization.

Continue 2x/week. Patient to log home exercise compliance.
